MATERIALS & SPECIFICATIONS

Series Fifty

The Series Fifty group is designed to offer a contemporary design, shipped ready to assemble, and provides a wide variety of configurations.

Worksurfaces

Worksurfaces are 1-1/2" thick and are composed of horizontal grades of plastic laminate and backing material bonded to a 1-7/16" industrial grade particleboard. Magna particleboard is recovered from Douglas Fir. The longer strands of the Douglas Fir provide superior deflection characteristics.

Edges

Woodplus:

These are synthetic edges made of 3mm thermo-fused PVC. Edges consist of a "through-grain", which shows the unique grain pattern on the trimmed edges and routed profiles. Choice of three edge profiles.

3mm:

These are solid 3mm hardwood edges. Edges are stained and finished to match worksurface and storage finish selected. Choice of three edge profiles.

Panels

All desk front, modesty and back panels are 3/4" thick, TFL construction.

Storage

Cases:

3/4" TFL case material.

Edging:

.5mm PVC edge, color and grain matched to case. All Surfaces and edges are finished.

Drawers:

Drawer bodies feature full extension 100lb (200lb for lateral files) ball bearing slides.

Leveling Glides:

Nylon based steel leveling glides with steel mounting brackets

Locks:

Locks are keyed randomly at the factory or can be keyed alike in the field.

Important Ordering Notes

A FLOOR PLAN of your Series Fifty layout is required to process your order. All hardware needed for assembly will be provided based on your floor plan.
