Miro Grommet Location

All grommets are black plastic with cover and sized at 2½" in diameter. For alternate grommet locations order DAGR grommets separately and field drill or contact the factory.

One Grommet

- 30" - 60" Rectangle/
Wedge Desk
- Angle Desk
- Square and Round Tables

Two Grommets

- 66"+ Rectangle/Wedge Desk
- Corners
- Verve

Grain Direction

The grain direction runs horizontally along the length of worksurfaces. On Extended Primary and Extended Corner shapes, the grain runs horizontally in the direction of the two longer ends.

Verve tables are comprised of two separate wings joined together diagonally at a 45° angle. The grain runs horizontally along the length of each wing; the Verve shape is not grain matched at the seam where the two wings adjoin.

Note –
Verves with woodgrain laminates are not grain matched.
