# Haven

## Settings that bring us together

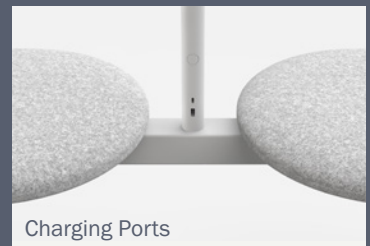

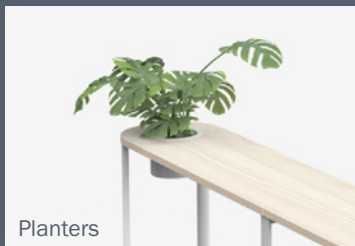

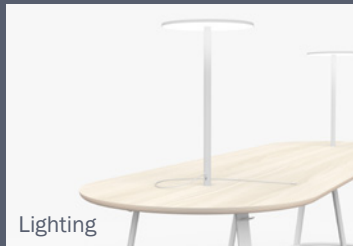

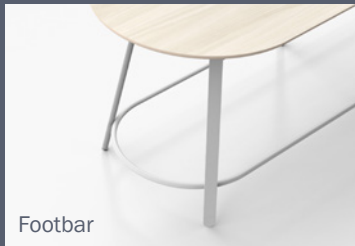

Haven is a collection of tables and tools designed to bring people together intentionally and purposefully. The workplace is transforming into a social haven for people and ideas to thrive. The uniqueness of the Haven Line is that each piece is designed without tailor-made functions. This makes Haven adaptable to multiple settings, for many purposes, and for many years to come.

“ We love making mock-ups, just to feel the experience. This way, as we’re designing, we’re not just focusing on an object; we’re designing an experience.

– Maaike Evers

# Partners in design

Mike & Maaïke is a progressive industrial design studio led by Mike Simonian and Maaïke Evers. Maaïke is Dutch, and Mike is from California. Their international backgrounds and thoughtful approach to design have culminated in a diverse body of work marked by experimentation, substance, and strong conceptual narratives.

Mike & Maaïke have partnered with Watson on multiple projects including Haven and Tonic.

# Who is Watson?

**We are builders.**

For more than 50 years we have been designing and building revolutionary and award-winning workplace solutions for some of the most dynamic and innovative companies. Our designs are functional, simplistic, and manufactured with a high respect for our environment and our people. We are proud to source the best talent and materials at our manufacturing facility in Poulsbo, WA.
