

# Seven Desk

## Mix it up.

Your space should adapt to you. Not vice versa. That's where the Seven Desk comes in. Fully height-adjustable for those days you'd rather stand than sit. Choose from several shapes, sizes, and finishes for a look that says: this isn't your typical office furniture.

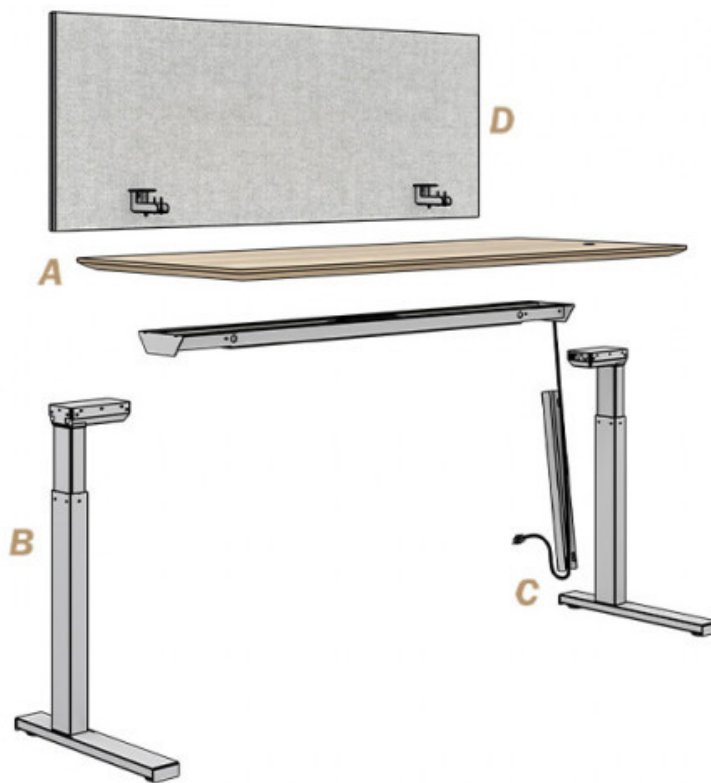

## Details

The low-profile architectural foot means there's plenty of legroom. When you're ready to adjust the desk, there's plenty to love there too, with heights ranging from 22" to 48".

## Features
