Haven Perch Table

Haven Perch's narrow and compact design adds functionality to currently unused and under-utilized spaces. It creates an inviting setting in a compact footprint and is perfect for transitional places like cafes, lobbies, and periphery spaces.

Details

Haven Perch is designed to be used in an array of settings to bring people together intentionally and purposefully. The distinctive leg profile features a flat front face that blends well with any architecture, and the rounded back softens spaces. The foot touches the floor gently which helps to give the table a light and friendly character. The unique Haven Edge softens the profile as if the surface is gently swept under.

Features

- Optional accessories offer an inviting atmosphere and biophilic elements
- A Foot Bar is standard on all Perch Tables allowing a comfortable touch-point
- Compact footprint allows for use in transitional spaces without compromising foot traffic flow
- Cable Channel optional when specified with Neighborhood Light

A

- Either 25mm European Birch plywood (if ply edges are chosen) or 1-1/8" industrial NAF particleboard surface material
- Perch tables are 18"D and 42"H offering a narrow width and standing height table for inbetween destinations

B

- Bag and coat hooks are tucked away and centered along the depth of the table

C

- Optional accessories include the Neighborhood Light, Floating Planter Tray, and In-Surface Planter (shown)

D

- Foot Bars are always included on Perch Tables and are powdercoated to match the table base
