DESKTOP CONVENIENCE POWER

- Byrne Dean
- 2 power, 1 dual USB-A+C or 2 power, 1 open data, 1 dual USB-A+C
- 2 colorways: Fog or Storm

DESIGNED TO WORK WITH C9 RAIL

Optional perforated steel cable tray

Optional E-Chain to connect to C9 Rail

Rounded leg column to match C9 design logic

Rounded foot profile to match C9 Rail foot

Same surface thickness and edge types to match C9 rail accessory tables

PRODUCT SPECIFICATION DETAILS

Two-leg Desk Height-adjustable
 The two-leg desk comes with a worksurface top and is constructed from any of the following core materials depending on options, 28 mm European birch multi-ply plywood with a waterborne edge stain, 3/4" double refined NAF MDF with a waterborne edge stain or 3/4" M2 industrial NAF particle board with 1.5mm high polypropylene edge band. All of these core materials are finished with either horizontal or post-form grade high pressure laminate or Forbo furniture linoleum on the top face and a horizontal grade backer sheet for balanced construction. The laminates are cold pressed using Wilsonart 3100 PVA ultra-low VOC adhesive. The base is a T-leg structure with 64mm leg tube profile supplied by a Linak DLB lifting column. The cross rail and feet are made from 12-gauge laser cut cold rolled steel. An optional cable management tray is mounted to the back of the desk frame rail and constructed of laser cut 18-gauge perforated cold rolled steel. This is designed to give easy access to optional utility power and easy wire management capabilities. The desk can be optioned with either 40mm knurled glides or twin wheel 37mm casters. All metal components are powder coated.

Desk Accessories

E-Chain
 Uses an industry leading injection molded plastic E-chain to control the movement of the cables leaving the desks. The ends of the chain are made from either 12 or 16 gauge cold rolled steel designed to mount to the underside of the desk and clamp to the edge of the rail system. All metal components are powder coated.

Utility Power
 A 4-outlet industrial grade power strip is an option when specifying. It comes with a 10-foot power cord and hardware to mount to the desk underframe.

Desk Screen

Straight Screen
 Constructed from two pieces of 12mm LDF wrapped in fabric using a rubber emulsion Simalfa glue with 0 VOC's. The two-leg desk screen includes two internal 3/16" thick hot rolled steel mounting plates designed to mount to welded steel clamping brackets. The clamps are designed to clamp to worksurfaces about 3/4" thick. All metal components are powder coated.

Modesty
 Constructed of two pieces of 12mm LDF wrapped in fabric using a rubber emulsion Simalfa glue with 0 VOC's. The modesty panels mount below the worksurface using cold rolled steel brackets that mount to the desk frame using a secure mechanical fastener. The modesty panel is designed to fit between the desk legs and mount under the frame rail location. All metal components are powder coated.
