

Tonic Conference Table

These tables carry the collection's visual language with their angled legs and intentionally versatile design. Create a tailored configuration by selecting from their range of height options and sizes, then add Watson's standard power options for meeting and conference where you need it for added convenience.

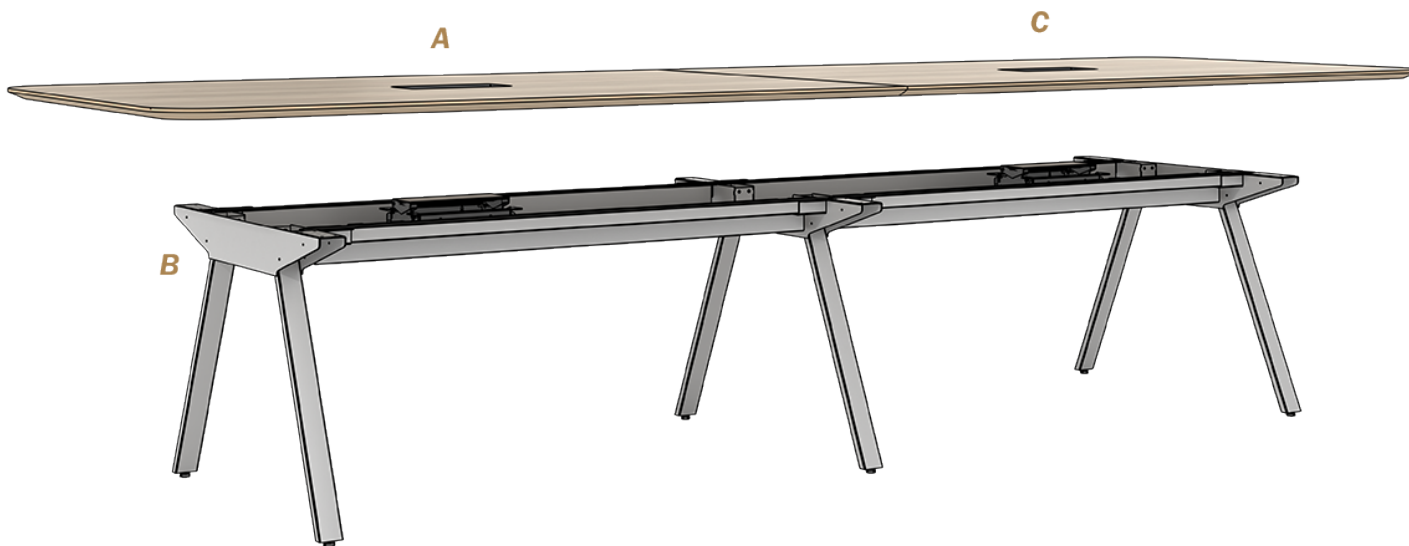

Details

Featuring a variety of heights and depths, the Tonic Conference Table provides plenty of options for your space. Select from Watson's meeting and conference power options for additional functionality, or add the universal monitor mount to the table's end to bring projects and presentations to life.

Features

- Available as a one-piece, two-piece, or three-piece top depending on desired dimensions
- Optional power can be added to one or all table sections
- Available in three heights; standing, counter, and seated
- Optional cable tray for heavier cabling needs
- Cable tower and cable channel available for additional wire management
- Specify the Monitor Mount to support screens up to 55"
- Dual-hinge, in-surface power and data options

A

- Available as a one-piece, two-piece, or three-piece top depending on selected dimensions

B

- Optional cable tray for heavier wire management needs

C
